

Organic Farming in Europe

Progress towards the EU target

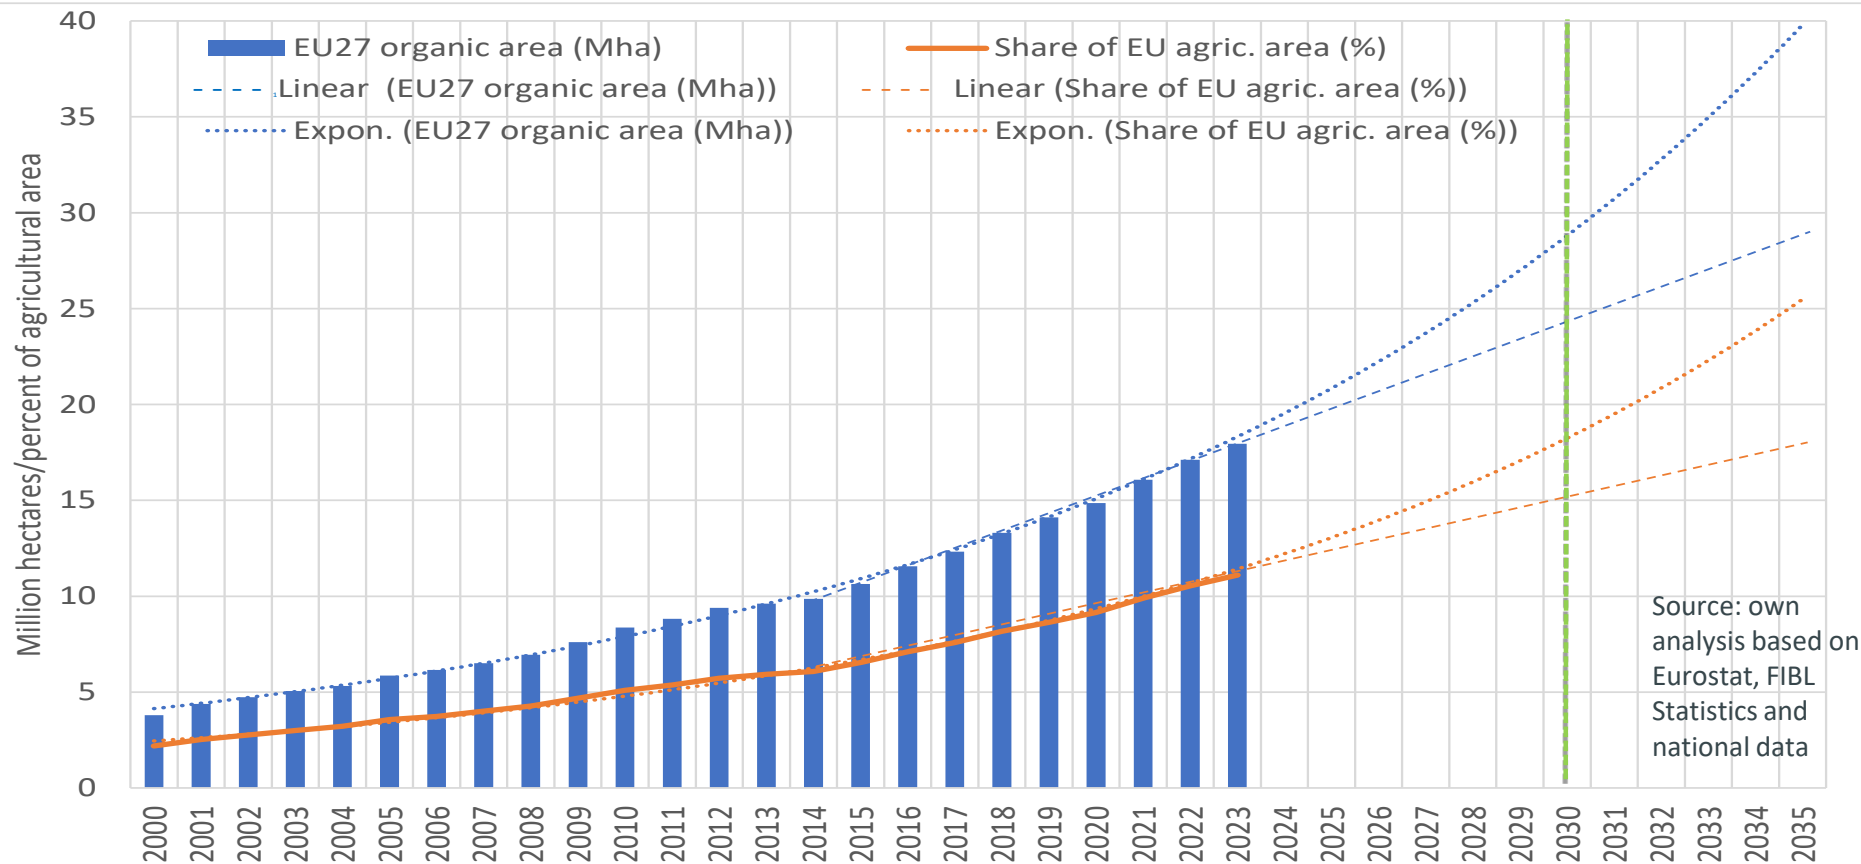

Nicolas Lampkin

Thünen Institute of Farm Economics

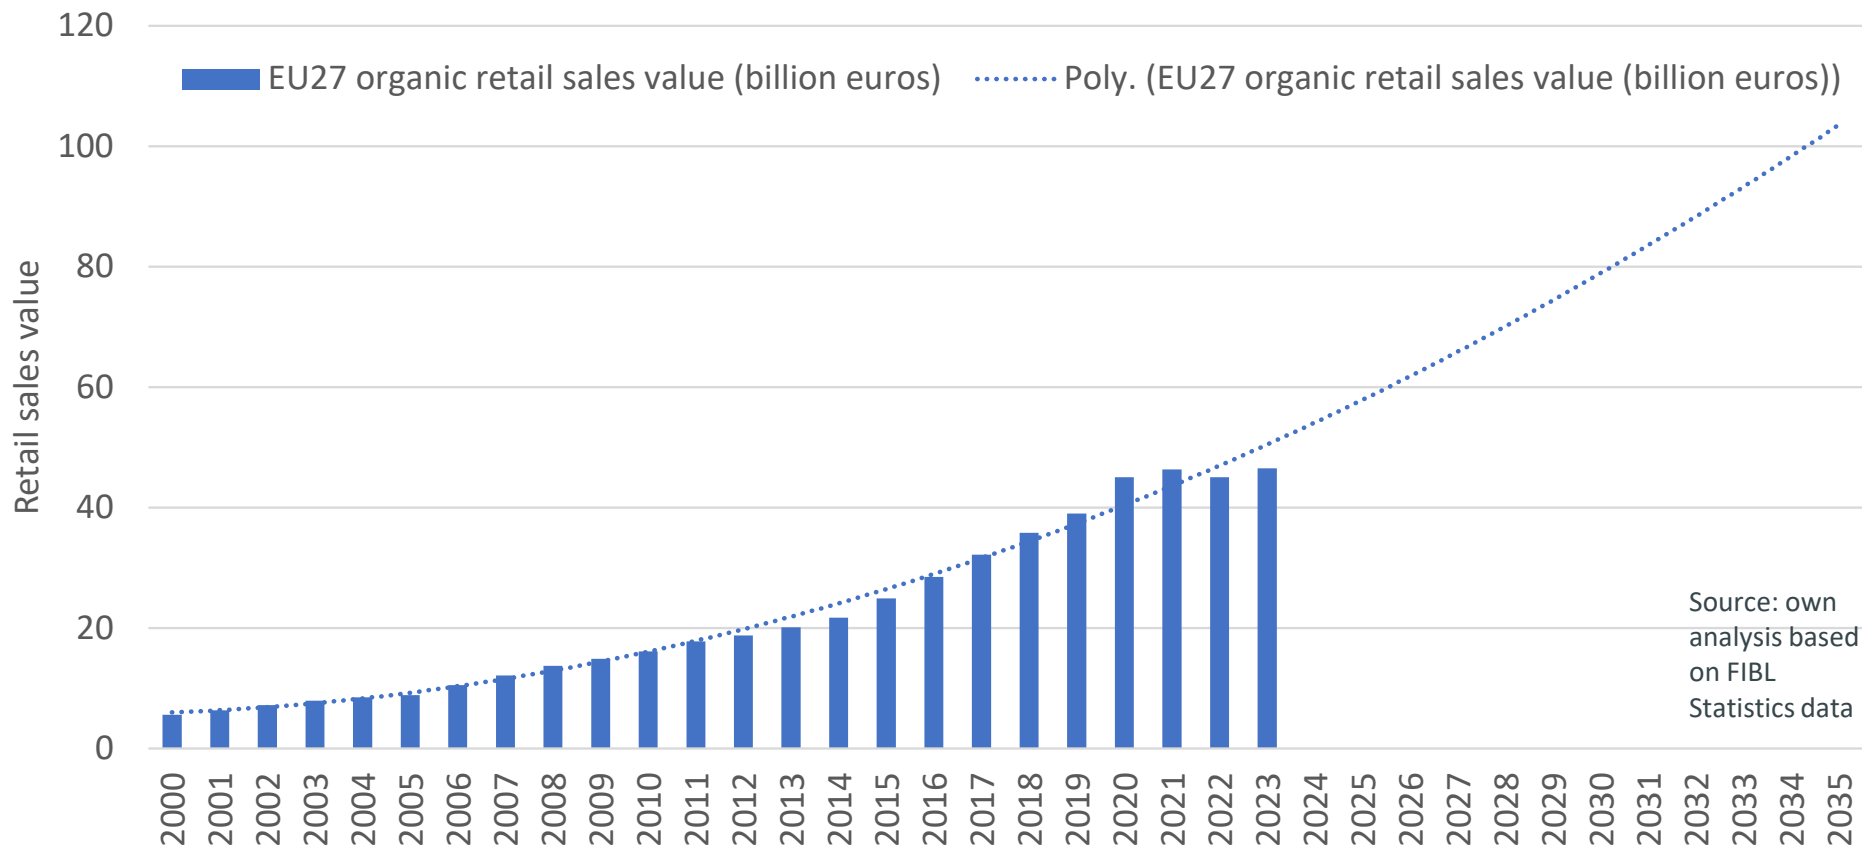

Growth in organic land area in the EU27, 2000-2023

- doubling every 10 years from 2000 (1990: 0.5Mha, 2023: 18Mha)

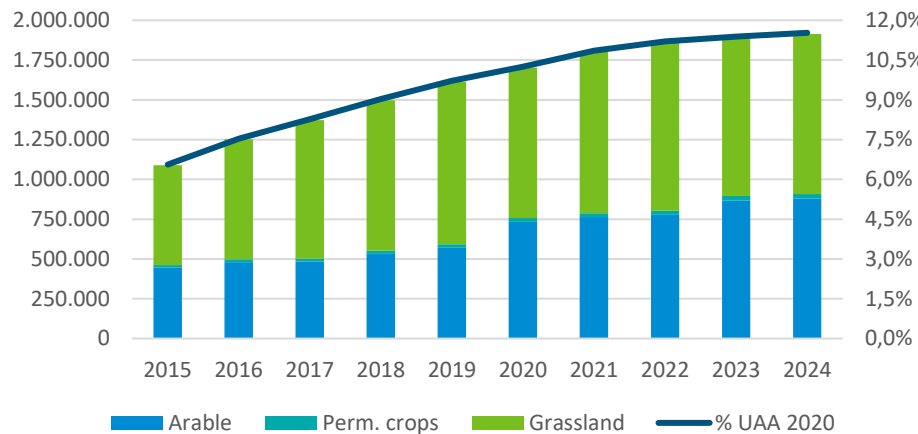

Growth in EU organic market retail sales value (G€), 2000-2023

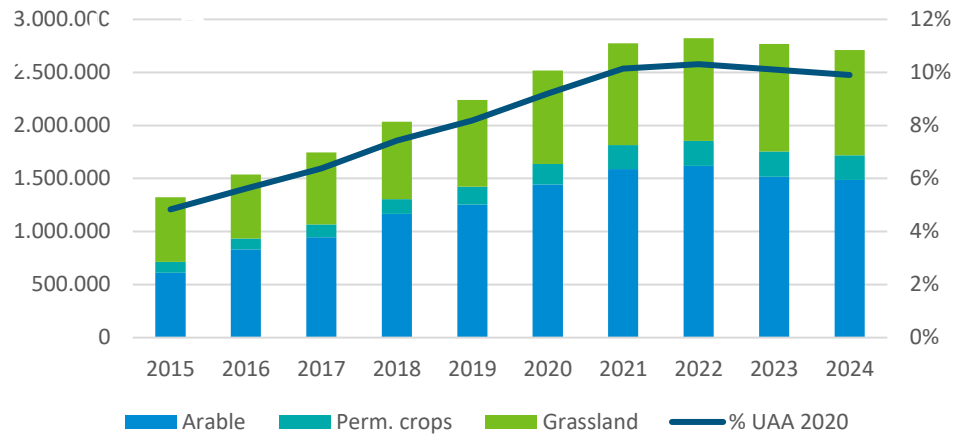

- was trebling every 10 years, now recovering from disruption

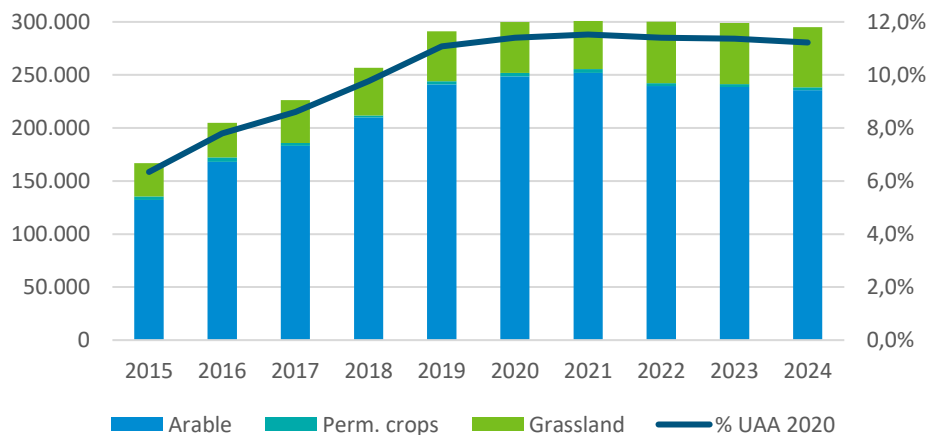

Germany

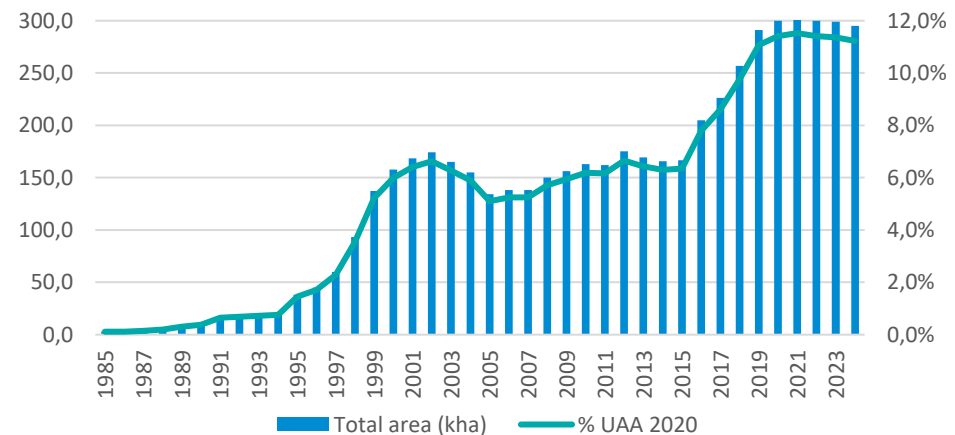

France

Denmark

Denmark from 1985

New challengers for the top spot - more policy, less market driven?
