ASSOCIATION

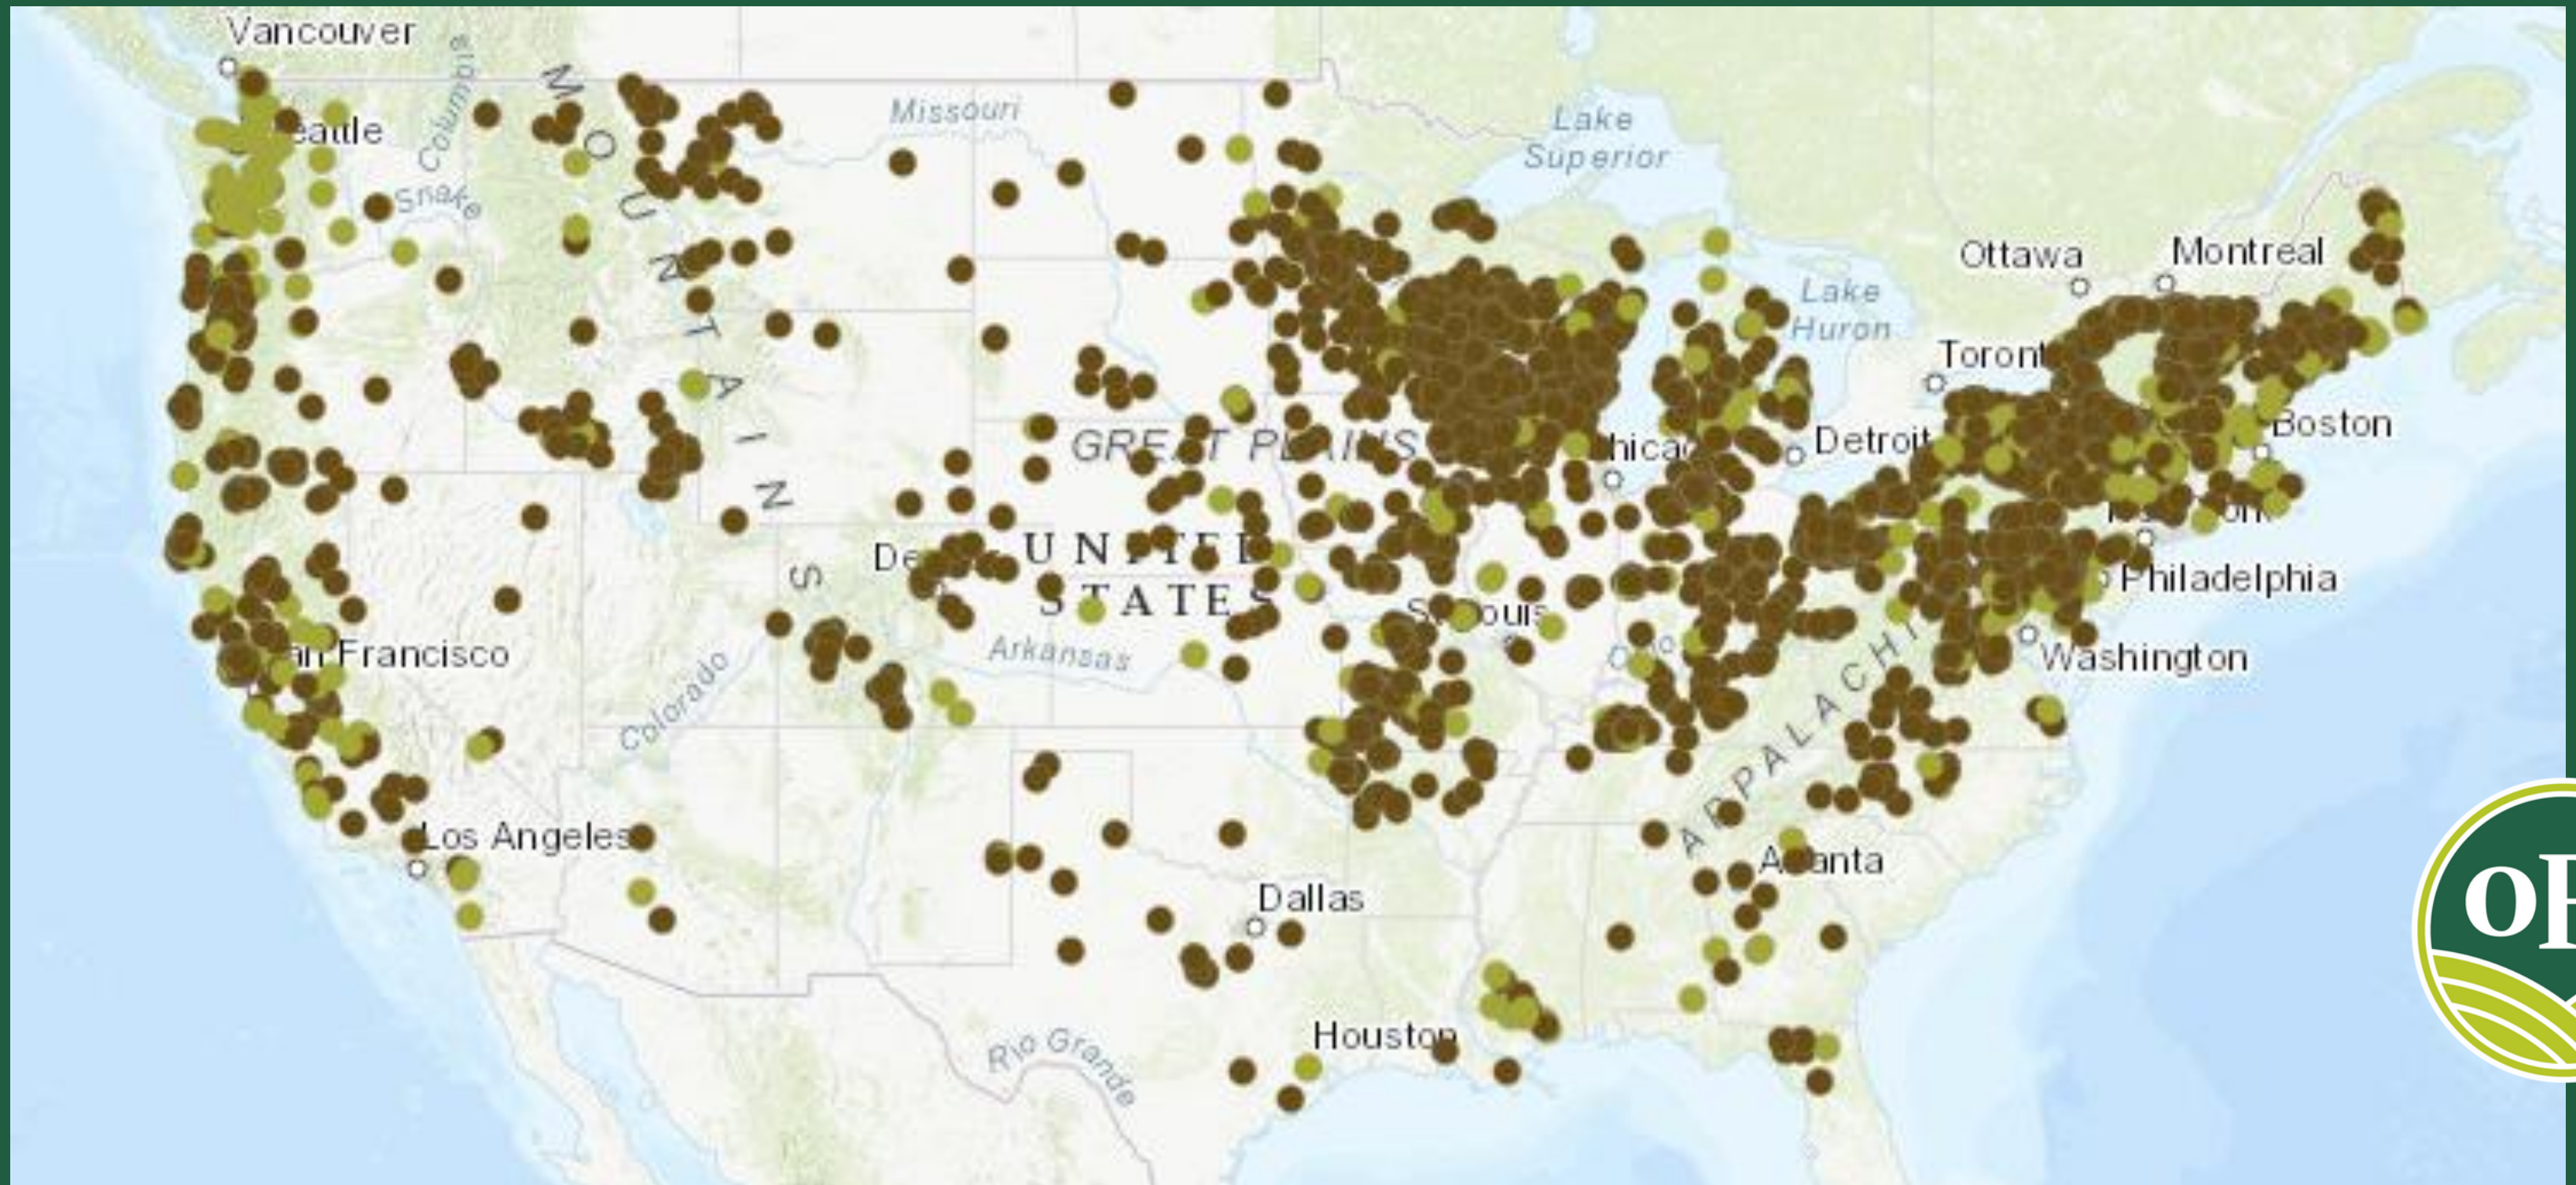

Who is Organic Farmers Association?

We ARE Farmers.

We represent the 17,600 U.S. certified organic farmers

Our vision

is that organic agriculture will become the basis of a viable United States food and agricultural policy and production system.

We believe

Organic agriculture is regenerative. Organic farms are managed in concert with natural systems to enhance the ecology of our local ecosystems, including clean air, water, soil, & food.

We endorse

the IFOAM Principles of Organic: **Health, Ecology, Fairness and Care.**
